

December 18, 2009

Dear Minister Broten,

Autism Canada sent to your predecessor two letters requesting a meeting with your office, to discuss the issue of termination of IBI treatment for children with autism in Ontario. The first was dated August 14, 2009 and a follow-up was dated September 28, 2009. We have not received a reply to our communication. Enclosed you will find copies of the two letters referred to above.

We would like to take this opportunity to once again request a meeting to discuss the autism crisis in Ontario. We believe that by this approach we can facilitate more effective communication and work expeditiously toward solutions for families dealing with this condition.

We look forward to hearing from you at your earliest convenience.

Sincerely,

Laurie Mawlam  
Executive Director  
Autism Canada
